

VEHICLES WITH AN EVENT DATA RECORDER

This vehicle listing is by year then alphabetically by make and model. The list includes only those vehicles that have an Event Data Recorder (EDR) installed by the vehicle manufacturer that can be downloaded using the current version of Bosch Diagnostics Crash Data Retrieval System software and hardware.

Other vehicles, not listed, may have an EDR on board but the vehicle manufacturer has not released the required software and hardware to retrieve data.

There are great variations in the amount and type of data that may be recorded. This is dependent upon the year, make, model and options configuration of the vehicle and the crash scenario.

This listing is current as of October 20, 2009.

If you would like more information about a specific vehicle, please contact us. Our services, including EDR data recovery, are only available to attorneys and insurance company representatives.
